Personal Statement

I am currently a masters student at Oregon Health and Sciences University's Center for Speech Learning and Understanding, studying computer science with a focus in signal processing and machine learning. From my several years industry experience and degree from Western Washington University, I developed strong interests in cryptography, reproducible research, statistical computing, and programming languages. I have adapted to, and adopted, a new or tool-set in nearly every challenge I have taken on. My interest in teaching and writing has also gained me strong communication skills.
