

<https://github.com/probinso>**Personal Statement**

I am currently a masters student at OHSU, studying computer science with projects in image, signal, and text processing. In my several years of industry experience and prior degree, I developed strong interests in information retrieval, machine learning, programming languages, and reproducible research. I have adapted to, and adopted, a new or tool-set in nearly every challenge I have taken on. I am looking for positions to grow and contribute in machine learning or scientific computing.
